See 2006 CPHA Annual Report, attached as PDF in English and French

List of Activities Prepared/Planned for the next reporting period:

Continuation of activities listed in 2006 Annual Report

Expectations and proposals regarding WFPHA:

- PHAs in high income countries provide financial and technical support to PHAs in low and middle-income countries similar to what CPHA is doing through the Strengthening of Public Health Associations (SOPHA) Program
- A rejuvenated, dynamic and vibrant WFPHA
- Resourcing and implementation of the new WFPHA strategic plan
- Identification and successful advocacy on at least one major public health issue of global significance
