44th Annual General Assembly Meeting  
Sunday, 16 May 2010  
13h00-17h00  
Graduate Institute (Institut des hautes études internationales et du développement)  
Rue de Lausanne, 132  
Genève, Switzerland

MINUTES

1. Opening of the Session
1.1 Opening Remarks by the President
1.2 Roll Call  
See appendix for list of attending members.

2. Adoption of the Agenda  
Adopted

3. Adoption of the Minutes of the 43rd Annual Meeting  
Adopted

4. Review of the Year’s Activities  
4.1 Annual Report of the President
On his last day as President, Dr. Paulo Buss reflected on his term of office. It was both an important yet difficult two years. The global economic crisis and decreased funding available to international health initiatives had a negative effect on attainment of the MDGs and global health. Nonetheless, there was some encouraging news about increased resources earmarked for global health by the US government and the European Union. The situation has affected the progress in implementing some elements of the WFPHA strategic plan.

The Federation increased its visibility in public discourses (for example, an invitation to attend the upcoming June meeting on the Millennium Development Goals in New York). In addition, some PHA members, such as Brazil and China, have become more actively involved in Federation activities. The Federation had also secured new funding from the Colgate-Palmolive company, a grant of $150,000 for 3 years. The hard work and dedication of the Executive Board is now carried out via frequent email communications and teleconferences and there has been some progress in improving the effectiveness of the Federation’s governance (striking of a Finance Committee; adoption of a new Funding, Donation and Sponsorship Policy).

Last year’s World Congress on Public Health in Turkey was a resounding success. Thousands of public health people from around the world attended it including Ministers of Health from several countries. However, this accomplishment also had its share of challenges, including the outbreak of H1N1 influenza that threatened to disrupt travel plans of Congress participants. Despite having to cancel her travel to Istanbul, Dr. Margaret Chan, WHO’s DG, participated via videoconference for the opening ceremony. The Congress was a success and brought attention to the service and dedication of public health professionals worldwide.

The Istanbul Declaration was drafted and presented to Ministers of Health and to the delegations of the 2009 World Health Assembly. Many public health journals also published the Declaration including those in Brazil and Italy, to name a few.

The establishment of a WFPHA office in Geneva facilitates the development of productive relationships and collaboration with other global health players in Geneva, the “global health capital of the world”. The Federation participated officially in the 2008 and 2009 World Health Assemblies and
will do so again this year, and at the Global Health Forums in 2009 and 2010. These activities create greater visibility for the Federation. Accomplishments among the members were also mentioned. The Ethiopia Public Health Association is progressing well with planning for the 2012 WFPHA Congress. In November 2009, the China Preventive Medicine Association hosted the 1st Annual WFPHA Asia Regional Conference held in Beijing, China. The next WPRO conference is scheduled for Tokyo, Japan in November 2010, hosted by the Japan Public Health Association. In December 2009, the Public Health Association of South Africa, in collaboration with APHA, held a training workshop for PHA in the Africa region.

The Canadian Public Health Association celebrates its centenary in 2010, which includes its 100th Annual Conference in Toronto in June 2010 (Dr. Buss will attend on WFPHA’s behalf). Paulo Buss also announced the World Conference on the Social Determinants of Health, officially convened by WHO, will be held in October 2011 in Brazil. The presence of the WFPHA leadership is very important at these meetings since representation is usually by individual members.

Finally, Paulo saluted the member associations for their role in promoting health equity. The EB members formally thanked Paulo for his leadership and the results achieved during his term as President. At the same time, Paulo wished Dr. Ulrich Laaser success as the incoming President.

4.2 Annual Financial Report of the Treasurer
The Treasurer presented the previous year’s financial report for 2009.

4.3 Introduction of new WHO Liaison
WFPHA’s former WHO liaison, Dr. Alena Petrakova recently left WHO and now works at the European Centre for Disease Control and Prevention. We would like to thank her for her contribution to WFPHA over the past few years. WFPHA welcomes Rebecca Bailey as the new liaison to the WHO. Ms. Bailey sent her regrets at not being able to attend this year’s Annual Meeting. The Geneva Office has established regular communications with Ms. Bailey and WFPHA and WHO are in the process of finalizing a memorandum of understanding/work plan for 2010-2011.

4.4 Annual Activity Reports of Member Associations (PHA Reports are not appended, but are available for viewing online)
Prof. Ulrich Laaser recognized the need to further develop associations, especially in the Middle East region and spoke briefly about his experience in the Pacific region. Dr. Paulo Buss and ABRASCO expressed their commitment to help reorganize the national public health associations in South America. All member associations are reminded to send their annual reports to the WFPHA so they may be added to the Federation’s website.

4.4 Journal of Public Health Policy
Tony Robbins, Editor of the Journal of Public Health Policy (JPHP), provided an overview about the Journal. Despite challenges facing many printed scientific journals, the JPHP remains a successful small journal. It will introduce next year an advanced online publication capacity, which should increase its visibility and reach. The Journal is global with over half of the papers submitted from outside North America. Initially, the JPHP started with 80 submissions/year of which 30 were published. Today, it receives over 300 submissions per year but maintains a maximum of 30 articles published per year. The search for reviewers is always a challenge.

The Federation will continue to have a section dedicated to it in the Journal. The management of the Federation’s section will now be transferred from Ulrich Laaser to Bettina Borisch. WFPHA members are encouraged to submit articles to Bettina for consideration. Mr. Robbins is very interested in having a “critical” blog about the public health challenges on the website of the Journal. Nick Watts, from IFMSA, volunteers to assist with this effort.

5. Strategic Plan
5.1 Planning Update & 2010 Work Plan (by Prof. Ulrich Laaser)
The members were briefed about the Executive Board’s decisions concerning leadership to manage the Strategic Plan’s 5 Goals:

Goal 1: Prof. Bettina Borisch, Dr. Paulo Buss, and Dr. Deborah Walker

Goal 2: Rebecca Bailey (to be confirmed) and Dr. Mengistu Asnake.
Goal 3: Federico Paredes will be replaced by Dr. Paulo Buss and Dr. Alena Petrakova

Goal 4: Dr. Georges Benjamin

Goal 5: James Chauvin

Jim Chauvin discussed using KM4PH as a way for the Federation to facilitate increased communications among PHAs. Access to the software was interrupted when Dr. Petrakova left WHO. CPHA is in discussions with WHO as to how to restart the KM4PH system for WFPHA and CPHA’s use. The goal is to have access by the end of the year.

5.2 WFPHA Secretariat in Washington and Geneva Office (presented by Deborah Walker, APHA representative)

Since its founding in 1963, the American Public Health Association (APHA) has kindly supported the WFPHA. The Executive Board recently decided to consolidate the Office of the Secretariat in Geneva. APHA will continue to support the Federation for three years through an annual contribution of US$50,000 and other possible functional support (e.g., the use of the APHA abstract system for the 2010 Congress), with a reduced amount in subsequent years (such that the Federation will be expected to secure funding for its operations from alternative sources). Vina HuLamm was recognized for her excellent work within the WFPHA secretariat.

The University of Geneva has kindly provided office space and facilities for the Federation at the IMSP. Prof. Bettina Borisch, a Professor of Social and Preventive Medicine and who works with Markus Kaufmann at the Swiss Society for Public Health, provides oversight to the office. She expressed gratitude to Thomas Vogel for taking the first steps towards the establishment of the Geneva Office.

Laetitia Bourquin, Program Manager at the IMSP, will assume the role of the Federation’s project officer. All WFPHA members are encouraged to fully utilize the presence of the Office as a place to drop by and ask questions. Laetitia will develop a stronger link with more students in Geneva as a means of encouraging their assistance in support of the Federation’s activities.

The Federation expressed its gratitude to the Graduate Institute, especially Michaela Told, for providing the conference room as the venue for this year’s Annual Meeting. The Assembly also voted to make a presentation to both the APHA for its past and on-going support of the WFPHA. A plate designed to commemorate APHA’s 30 years of support to the Federation will be presented to it.

Dr. Alex Leventhal inquired about the relationship between WFPHA and EUPHA. As EUPHA is a member of the WFPHA and with Theo Abel in close contact with them to establish the By-Laws and Constitution committee, the idea to have merged Congresses was proposed. No decision was taken on this issue.

6. Committee Reports
6.1 Finance Committee

Jim Chauvin, Chair of the Finance Committee, provided a summary of the main financial issues facing the WFPHA and its financial plans for the upcoming year. Recently, the FC reconciled the Federation’s financial records and completed an assessment of the financial status of all grants. A full report was presented to the EB at its April 22 teleconference.

In 2008, the WFPHA advanced $50,000 to cover travel costs for invited speakers attending the Istanbul Congress, on the assumption that these funds would be reimbursed through the grant to be received from the Rockefeller Foundation. A financial report for the utilization of grant monies related to the Bellagio meeting and the Istanbul Congress submitted by APHA on behalf of the WFPHA is still under review by the Foundation. Once the original grant expenses are approved, APHA will approach the Foundation on behalf of WFPHA to request a supplemental grant to cover the advance. There is no guarantee that a supplemental grant will be approved; hence, the Federation may have to accept the $50,000 as a non-recuperable investment.

In order to strengthen infrastructure/operational support, the Office of the Secretariat in Washington, D.C. will move to Geneva. Centralizing operations in Geneva will help to put the Federation in a more strategic location to strengthen its relations with WHO as well as forge stronger partnerships with other
international organizations. APHA will continue to support the Federation with an annual financial contribution for the next 3 years, with a reduction phasing out grant in subsequent years. The Federation’s finances will also be consolidated with the closing of the WFPHA’s bank accounts in Washington, D.C. and the transfer of the remaining funds to the Federation’s Geneva bank account.

At present, the WFPHA Treasurer is the only signatory for its Geneva bank accounts. The Executive Board has approved the addition of the following persons as bank account signatories: Prof. Ulrich Laaser (as WFPHA President); Jim Chauvin (Chair, WFPHA Finance Committee); and Geneva-based EB member, Prof. Bettina Borisch. This will reduce the risk of not having access to the WFPHA funds in the event that the Treasurer is unable to function in that capacity.

Over the next year the Finance Committee and the Executive Board will move towards developing a diversified funding action plan for the continued operations of the WFPHA and its programs. A draft budget for the upcoming 2010-2011 fiscal year was presented for the Assembly’s approval.

6.2 Membership Committee
Theo Abelin presented the Committee’s recommendations for the General Assembly’s consideration of the membership applications from the following associations:

- Full membership status for the following applicants:
  - Mongolian Public Health Professionals Association
  - Société sénégalaise des professionnels de santé publique (Senegal Public Health Professionals’ Association)
  - Asociación Nicaragüense de Salud Pública (Nicaragua Public Health Association)

- Sustaining membership status for the following organizations
  - World Association of Chinese Public Health Professionals (the organization representing Chinese public health professionals living outside of the PRC)
  - The Graduate Institute of International and Development Studies (Geneva)

- No final decision for the following applicants, pending the submission of additional supporting documentation:
  - Saudi Arabian Public Health Association (SAPHA): confirmation that membership is non-discriminatory and open equally to men and women
  - Dubai Health Authority: as it is a government organization, their membership application requires additional information as to whether it fulfills WFPHA’s membership criteria. In addition, confirmation is needed regarding their acceptance of both men and women as members.

6.3 Nominations Committee
Nominations were received for two candidates for the position of Vice-President/President-Elect: James Chauvin (Canadian Public Health Association) and Dr. Mengistu Asnake (Ethiopian Public Health Association). In order to include all WFPHA members in the voting process, the Office of the Secretariat circulated voting ballots via email a few weeks in advance of the meeting. Voting ballots were received from 15 associations (one vote per national PHA) through fax and email up until the Annual Meeting. Votes were also accepted in-person from members attending the General Assembly (26 ballots). All vote ballots were counted (one vote per PHA). The results were: James Chauvin: 36; Mengistu Asnake: 5. By voting majority, Jim Chauvin was confirmed as the next Vice-President/President-Elect of the Federation.

Two positions on the Executive Board are open: Eastern Mediterranean region (EMRO) and Western Pacific region (WPRO). Despite multiple emails calling for nominations, none were received. Dr. Cai Jiming, of the Chinese Preventive Medicine Association, expressed CPMA’s interest in continuing its term on the Executive Board, given the approval of both the EB and GA. The EMRO seat remains vacant until new nominations are received. For the AFRO region, Dr. Tewabech Bishaw, the current President of the Ethiopian Public Health Association, replaces Mengistu Asnake as the EPHA representative on the EB.

The Executive Board requested the Nominations Committee look into the possibility of adding an additional AFRO position on the Executive Board. This would bring the number of AFRO seats on the EB in line with other regions. The By-Laws specifies that no less than 6 members but no more than 12 members on the Executive Board. If this concept cannot be accommodated within the current EB structure, the By-Laws would have to be changed with approval from the General Assembly. The Committee will examine the idea and present its recommendation to the EB for approval before the next Annual Meeting in 2011.
6.4 Policy Committee

6.4.1 Policy Papers

The Chair of the Policy Committee, Prof. Bettina Borisch, provided a summary of the Committee’s activities for the past year. She introduced four policy-related items for the General Assembly’s consideration:

1) Procedures: the Policy Committee established new updated procedures for the submission and vetting of proposed WFPHA policy and position papers. This new policy will be posted on the WFPHA’s website.

2) WFPHA Funding, Donations, and Sponsorship Policy: this new policy, developed following the 2009 WFPHA Congress, was approved by the Executive Board during its April 22 teleconference meeting.

3) Several APHA members submitted a proposal for a WFPHA policy statement on “Public Health Leadership and the Socially Marginalized”. The Policy Committee proposes that it be resubmitted for consideration next year, according to the newly adopted procedures. Dr. Alex Gatherer (APHA) will be invited to attend the Policy Committee meeting prior to the 2011 Executive Board meeting.

4) A proposal for a WFPHA position on “Public Health and War” (submitted by Dr. Amy Hagopian, APHA): The submission was received late for this year. Dr. Hagopian will be invited to re-submit again in 2011, and it will require endorsement by other WFPHA member associations.

It was noted that policy-related submissions should include the following:

- Who is the target group of this resolution? A more well-focused resolution is needed with well-defined actions that are manageable (i.e. one group, one topic).
- Members of the Policy Committee are recommended to directly approach individuals of the WHO’s EB or Ministries of Health for support instead of addressing the general institution.
- What can the WFPHA do with this resolution (not WHO)? An operational paragraph is needed.

6.4.2 Istanbul Declaration

The Geneva Office plans to do a membership survey to determine whether and how they have disseminated/used the Istanbul Declaration, and to gather information on what has been accomplished with past WFPHA resolutions. This survey will also help further define the expectations of members in being members of the Federation (the “benefits of membership”). Jim Chauvin and Gabriel Scally agreed to assist the Geneva office in the questionnaire’s development.

6.4.3 Role of Working Groups

Existing working groups should produce tangible results guide the Federation on new positions and policies. The Federation currently has two groups (Tobacco Control and Environmental). The formation of a third working group, on “global health equity”, was approved by the Executive Board. The co-chairs of this WG are Bettina Borisch (SSSP), Debbie Walker (APHA) and Dr. Tewabech Bishaw (EPHA). Proposals for other WGs must be vetted by the Federation and approved by the EB before they can be constituted.

6.5 By-Laws and Constitution Committee

The interim By-Laws and Constitution Committee was appointed ‘ad interim’ by WFPHA President Paulo Buss in Fall 2009. The members of the committee include Theodor Abelin as Chair (former WFPHA President and former Chair of the Swiss Society for Public Health), Margaret Hilson (former WFPHA President, Canadian Public Health Association) and Dineke Zeegers (Executive Director of EUPHA). The Committee submitted a report to the Executive Board and General Assembly on 17 April 2010. A summary of the following issues were presented (please refer to the report for more details – Annex 1):

- Clarification of revisions made and approved for membership (from April 2009)
- Creation of working groups: criteria, process for development of ToRs and membership, approval process
- Advisory Committee: role, composition
- Funding, Donations, and Sponsorship Policy
- Quorum for Executive Board: proxy vote
- Washington and Geneva Offices
6.6 Working Groups

6.6.1 Tobacco Control
Jim Chauvin presented a brief report on the activities of the Tobacco Control Working Group (TCWG). Members of this group include PHA representatives from Bosnia and Herzegovina; Serbia; Tanzania; Turkey; Vietnam; Canada; and Switzerland. Prof. Mike Daube, President of the Public Health Association of Australia, has agreed to be the new Chair for this WG. The Canadian Public Health Association has offered to serve as the TCWG’s secretariat for the short term. The Federation expresses appreciation to former Chair Prof. Theodor Abelin for his work with TWGC for many years. Prof. Abelin will work with Prof. Daube until the transition is complete (expected to occur in late 2010).

6.6.2 Environmental Health
Dr. Peter Orris (APHA) and the WG’s Chair, made a presentation on the WG’s activities over the past year. The upcoming conference by the United Nations on Climate Change in Cancun, Mexico (29 November - 10 December, 2010) will serve as the meeting of the Conference of Parties to the Kyoto Protocol. The Federation will contact the Mexican PHA to request their attendance on behalf of WFPHA.

7. Voting

7.1 Election and confirmation of Executive Board members
The General Assembly voted and confirmed the term renewal of Dr. Cai Jiming (Chinese Preventive Medicine Association) as the WPRO representative on the Executive Board. In addition, the General Assembly voted in favor of Dr. Tewabech Bishaw, the new EPHA President, to replace Dr. Mengistu Asnake as the AFRO representative on the Board.

7.2 Election and confirmation of Vice-President/President-Elect
The General Assembly voted and confirmed James Chauvin (CPHA) as the next Vice-President/President-Elect of the Federation.

7.3 Treasurer’s Report and Auditor
The General Assembly voted unanimously to accept the report of the Treasurer and Auditor.

7.4 New Members
The General Assembly voted unanimously to accept the recommendations of the Membership committee.

7.5 Proposed By-Law and Constitution Changes
The General Assembly voted unanimously to accept the proposed By-Laws changes presented by Prof. Theodor Abelin (see By-Laws report).

7.6 New Funding, Donation and Sponsorship Policy
The General Assembly voted unanimously to accept the proposed Funding, Donations, and Sponsorship Policy.

7.7 New Committee/Working Group Chairs
The General Assembly voted unanimously to accept the following persons as Chairs of committees or working groups:

Committees
- Finance: James Chauvin (CPHA)
- Membership: Francisco Cabo (AMOSAPU)
- Policy: Prof. Bettina Borisch (SSSP)
- Nominations/Awards: Vacant
- By-Laws and Constitution: Prof. Theodor Abelin (SSSP)

Working Groups
- Environment: Dr. Peter Orris (APHA)
- Tobacco Control: Dr. Mike Daube (PHAA)
- Global Health Equity: Prof. Bettina Borisch (SSS) and Dr. Debbie Walker (APHA)
- Education: TBD

- 6 -
8. Other Business
8.1 Report of the West Pacific Regional Liaison Office
The 1st WFPHA West Pacific Regional (WPRO) Conference on Public Health took place 25-28 October 2009 at the Jiuhua Resort in Beijing, China. It focused on the theme of “WPR-Networking: Preparedness for Public Health Challenges”. A total of 45 representatives participated in the meeting. Countries represented included, Australia, Japan, New Zealand, Indonesia, and Vietnam. Two member associations were absent, Korea and the Philippines. The opening session was chaired by Dr. Cai Jiming, CPMA’s Vice-President, and included remarks by WFPHA’s Prof. Ulrich Laaser. The plenary meeting included reports by experts that covered a range of topics, including maternal mortality, epilepsy, father involvement in child/adolescent health, HIV/AIDS, cardiovascular health, and respiratory health.

CPMA reported on the establishment of the regional liaison office in China (WPRLO). The Division Director of Foreign Affairs, Dr. Wang Peng presented a detailed discussion on the WPRLO implementation mechanism and principle. The office has communicated with 6 members in the region and will continue to coordinate dialogues. As a next step, a Regional Executive Committee for WPRLO will be organized. The committee will consist of members from each national member association.

The 4th Meeting of Public Health Associations in Asia will consist of two jointly held conferences, the 2nd WFPHA West-Pacific Regional Conference on Public Health and the International Symposium of the 69th Annual Conference of the Japanese Society of Public Health. Both will be held 28-29 Oct 2010 in Tokyo, Japan.

8.2 Report on Planning 2012 WFPHA Congress
Dr. Tewabech Bishaw provided an update on the planning for the upcoming Addis Ababa Congress for 2012. The proposed dates are April 21-29, 2012. The Ethiopian Public Health Association (EPHA) continues to advocate with the Ethiopian government for its support of the Congress. EPHA has received the commitment of the Ethiopian President and Minister of Health.

A congress planning meeting held on May 4, 2010, shared the guiding framework to discuss the structures of the committees for the Congress. WFPHA and EPHA are working out a memorandum of understanding to be signed between the organizations as well as drafting an action plan. EPHA organized 4 working groups for the Congress, with members elected by the Advisory Council. The proposed Congress planning structure will have one local umbrella committee and one scientific committee. Dr. Ulrich Laaser and Dr. Tewabech Bishaw will both be the link between the two committees. EPHA has identified appropriate conference facilities that are reasonably priced and can accommodate international attendees. In addition, EPHA is in contact with an international organization to organize sightseeing and historical tours.

In addition, EPHA is working on a plan of action for obtaining funding/sponsorship. Dr. Bishaw hopes that other member associations will become more involved with the Congress planning. EPHA is working with the members of the proposed African PHA network to facilitate the process of their participation (visa approval) at the Congress.

The WFPHA will monitor with EPHA to ensure that Congress planning milestones are met.

9. Meeting Closure
The new WFPHA President, Ulrich Laaser, brought the meeting to a close and thanked all delegates for attending. He encouraged WFPHA members to attend next year’s General Assembly, which will take place the Sunday prior to the start of the 2011 World Health Assembly, in Geneva.
