International Federation of Environmental Health
WFPHA membership: Partner Organisation
Representative: Peter Archer, IFEH Vice President

About the International Federation of Environmental Health - IFEH

- IFEH is a WFPHA Partner (sustaining member) since Feb 2015
- WFPHA is an ‘Associate member’ of IFEH in a reciprocal arrangement
- IFEH has 44 Full member organisations & 23 Academic organisations representing more than 50,000 environmental health professionals worldwide
- Object – ‘to provide a focal point for national organisations of practitioners, whether in state, local government, or private employment, whose concern is the care of the environment in the interests of the public’s health’
About the International Federation of Environmental Health - IFEH
Achievements & current focus

- **15th** World Congress held in Auckland NZ in March 2018
- **20+** IFEH MOs + Academic & Associate Members were represented in Auckland
- Particularly focused on EH issues in Southern Hemisphere
- **Methamphetamines** (crystal meth) major EH housing & buildings issue as well as PH issue in NZ & Australia
- Following **14th** World Congress, recently completed 2 year project Malawi sanitation & water project for girls at school in rural area of Salima close to Lake Malawi
About the International Federation of Environmental Health

- IFEH Regions meet regularly to share best practice – e.g. EFEH meets twice annually - five countries (from Sweden to Croatia) looking at air quality in kindergartens & primary schools – expecting interesting outcomes!
- Continue UN/WHO work on disaster risk reduction & Sendai framework
- Declaration on health equity – closing the gap in a generation – ongoing
- Delivering health equity – ‘101 postcards’ – local projects delivering health improvement – ongoing
- Being part of WFPHA? - IFEH is interested in reinforcing WFPHA’s interest in the ‘wider determinants of health’ – e.g. implementation of the Charter – toolkit

Planetary Health Alliance
Full member
Representative: Erika Veidis

About:
- The Planetary Health Alliance is a global consortium of over 100 universities, research institutes, NGOs, and government entities working to understand and address the health impacts of global environmental change.
- The Planetary Health Alliance, based at Harvard University, works to support the growth of the field of planetary health, which focuses on the linkages between human-caused disruptions of earth's natural systems and the resulting impacts on public health.
- Key focus areas include:
  - Building an education platform, containing a curated collection of resources supporting educators in teaching planetary health;
  - Hosting an Annual Meeting to showcase cutting-edge interdisciplinary research, discuss solutions, and spark international and intersectoral collaboration;
  - Supporting the next generation’s involvement in planetary health through the Emerging Scholars Network, consisting of student-run planetary health clubs around the world;
  - Launching the Planetary Health Storytellers initiative to communicate planetary health to the general public through writing, photography, film, and social media outlets;
  - Building foundational resources in planetary health, including an anthology of case studies.

Main upcoming events:
- Planetary Health Annual Meeting, May 29-June 1, 2018, Edinburgh, UK.
